

RING SIZE GUIDE

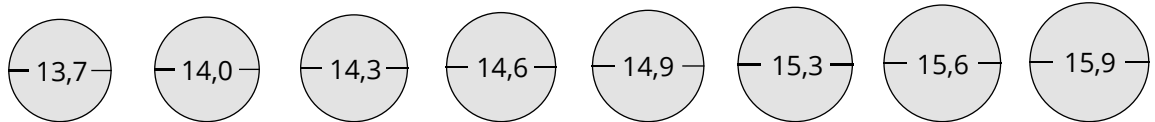

After printing, please ensure to measure the control dimension indicated below first. It should precisely measure 5 centimeters in length. If the measurement is not accurate, kindly review your print settings - A4 portrait format, no page margins, no page adjustment, print size set to 100% - and print another copy. With the accurately printed ring template, you can now determine your partner's ring size with confidence.

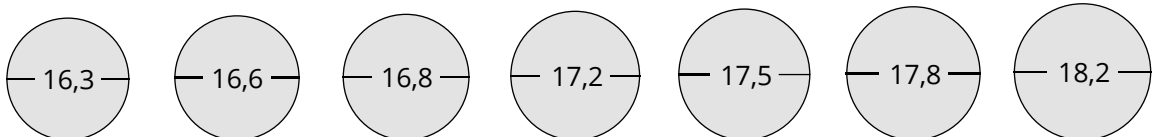

Please ensure that this line measures 5 centimeters on your ruler to verify the correct printed size.

Size determination

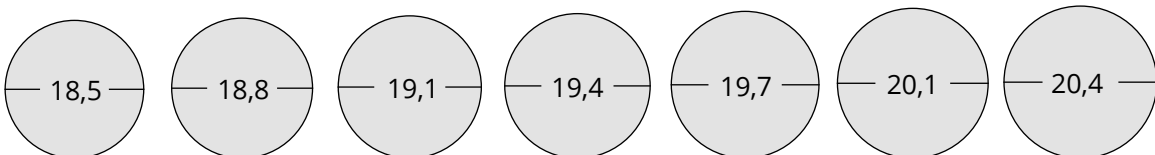

Place a ring, which your partner often wears, at the bottom of the matching circle. The inner circumference of the ring must be flush with the outer edge of the circle.
